

List of CAAQM Stations — All India

Continuous Ambient Air Quality Monitoring Stations (CAAQMS)

Central Pollution Control Board (CPCB) · Central Control Room for Air Quality Management

This document lists **358 Continuous Ambient Air Quality Monitoring Stations (CAAQMS)** across **31 states and Union Territories** of India, with each station's operating agency and geographic coordinates. CAAQMS provide real-time, automated air quality data feeding the National Air Quality Index (AQI). Stations are operated by CPCB, State Pollution Control Boards (SPCBs), Pollution Control Committees, the India Meteorological Department (IMD), and the Indian Institute of Tropical Meteorology (IITM).

Note: CPCB continually adds, relocates and retires stations, so the live count on the official portal will differ from this snapshot. Station codes take the form site_NNN and are used when querying or downloading a station's data from the CCR portal.

City	Station Name	Operating Agency	Latitude	Longitude	Code
Uttar Pradesh — 55 stations					
Agra	Manoharpur, Agra	UPPCB	27.2371	78.0194	#5464
